

AFRIVATE TEAM LEAD OPERATIONAL PLAYBOOK

Document Code	AFRI-TLOP-01
Target Audience	Team Leads
Focus	Authority, Accountability & Delivery

INTRODUCTION

This Playbook defines the operational authority, responsibilities, and success metrics for Team Leads at Afrivate Technologies Ltd. It ensures consistent leadership standards across all departments.

Operating systems: Slack is Afrivate's official internal communication channel. The Afrivate Portal is the system of record for operational workflows, including tasks, weekly check-ins, goals, leave, onboarding, learning, resources, surveys, feedback, performance records, events, and people operations.

C1. CORE RESPONSIBILITIES OF TEAM LEADS

- **Task management:** Create, assign, clarify, and reassign work through **Portal** → **My work**, including the outcome, owner, priority, deadline, status, hours, dependencies, and blockers.
- **Goals and KPIs:** Agree goals with direct reports, record them through **Portal** → **Growth** → **OKRs**, and review progress through Weekly check-in.
- **Performance monitoring:** Use Portal tasks, weekly check-ins, OKRs, IDPs, feedback, and 1:1 records to maintain an accurate performance record.
- **Disciplinary authority:** Initiate first-level disciplinary actions in accordance with the Standard Work Process and applicable People & Culture procedures.
- **Escalation:** Record risks and blockers in the relevant Portal workflow and communicate or escalate them through Slack.

C2. TEAM LEAD AUTHORITY BOUNDARIES

Team Leads may:

- Assign and reassign tasks within their team through the Portal
- Agree KPIs with direct reports, record goals in Portal OKRs, and review progress through Weekly check-in

- Review team leave requests, check handover and delivery impact, and record the permitted recommendation or decision in the Portal
- Use Slack to clarify work, coordinate delivery, and communicate operational decisions
- Issue verbal and written warnings
- Recommend Performance Improvement Plans (PIPs)

Team Leads may NOT:

- Terminate employment without HR/Admin approval
- Change compensation or benefits
- Override company-wide policy
- Approve leave outside defined authority

C3. TEAM LEAD SUCCESS METRICS

- Team delivery consistency
- KPI completion rates
- Communication discipline
- Escalation accuracy and timeliness

LEADERSHIP PROTOCOL: TASK ASSIGNMENT CHECKLIST

1. Clear title, outcome, and description entered in the Portal
2. Owner or assignees confirmed
3. Priority and deadline stated
4. Dependencies, files, and success criteria attached where relevant
5. Clarification and follow-up communication handled through Slack

Completeness requirement: A task that omits any of the above elements is incomplete and must be corrected before it is treated as valid assigned work.
