

AFRIVATE TEAM LEAD OPERATIONAL PLAYBOOK

Document Code	AFRI-TLOP-01
Status	Official — Binding for Team Leads
Applies To	Portal Team Leads and Assistant Leads
Effective Date	2 August 2026
Related	AFRI-SWP · AFRI-DOA-01 · AFRI-LAP-01 · AFRI-ORG-01

Authority ceiling: This Playbook grants only the powers listed below. It does not create employment authority, spending authority, or final leave-approval authority. AFRI-DOA-01 prevails on conflicts about who may decide.

1. PURPOSE

This Playbook defines the operational duties and limits of Team Leads (including Assistant Leads where the Portal assigns them lead functions) at Afrivate Technologies Ltd.

2. OPERATING SYSTEMS

Slack is the official internal communication channel. The Afrivate Portal is the sole system of record for tasks, weekly check-ins, goals, leave requests, onboarding, learning, resources, surveys, feedback, performance records, events, and people operations. A Slack message does not create a Portal decision.

3. MANDATORY DUTIES

- **Task management:** Create, assign, clarify, and reassign work through **Portal** → **My work**, stating outcome, owner, priority, deadline, status, hours, dependencies, and blockers.
- **Goals and KPIs:** Agree goals with direct reports, record them in **Portal** → **Growth** → **OKRs**, and review progress through Weekly check-in.
- **Performance monitoring:** Maintain an accurate performance record using Portal tasks, weekly check-ins, OKRs, IDPs, feedback, and 1:1 records.
- **First-level conduct:** Initiate coaching, verbal warnings, and written warnings in accordance with AFRI-SWP, and copy People & Culture on written warnings.
- **Escalation:** Record risks and blockers in the applicable Portal workflow and escalate through Slack per AFRI-DOA-01 (critical matters within sixty (60) minutes).

- **Leave recommendation:** Within one (1) official work day of a team leave request, record in the Portal an objective operational recommendation (impact, handover adequacy, capacity). Final approval or decline is by People & Culture under AFRI-LAP-01.

4. POWERS GRANTED

Team Leads **may**:

- Assign and reassign tasks within their Portal team;
- Agree KPIs with direct reports and record goals in Portal OKRs;
- Record leave recommendations (not final approvals) in the Portal;
- Use Slack to clarify work and coordinate delivery;
- Issue verbal and written warnings (written warnings copied to People & Culture);
- Recommend Performance Improvement Plans (PIPs) to People & Culture.

Team Leads **must not**:

- End a Team Member's engagement, revoke Portal access, or "terminate employment" (People & Culture / CEO under AFRI-DOA-01 and AFRI-ICEF-01);
- Promise, change, or discuss as binding any salary, stipend, equity, or benefits;
- Create any Cash Commitment or sign any agreement binding AfriVate;
- Override company-wide policy or this Playbook's limits;
- Treat a leave request as approved unless People & Culture's decision appears in the Portal (or a written CEO delegation expressly authorises the Team Lead for a defined scope).

5. SUCCESS METRICS

- Team delivery against Portal deadlines and outcomes
- KPI / OKR completion rates for reports
- Communication discipline (Slack acknowledgement and Portal accuracy)
- Escalation accuracy and timeliness

6. TASK ASSIGNMENT CHECKLIST (COMPLETENESS GATE)

1. Clear title, outcome, and description in the Portal
2. Owner or assignees confirmed
3. Priority and deadline stated
4. Dependencies, files, and success criteria attached where relevant
5. Clarification handled through Slack; final agreed outcome reflected in the Portal task

Completeness requirement: A task missing any element above is incomplete and is not valid assigned work until corrected.

7. GOVERNING PROVISIONS

Governed by the laws of the Federal Republic of Nigeria. Amendments only by CEO-authorised update published under Portal Resources. AFRI-DOA-01 and AFRI-LAP-01 prevail over this Playbook on decision rights and leave.
