

DAILY HR & OPERATIONS REPORT

Reporting date: 19 August 2026

Prepared by	Emmanuel Okpiaifo
Role	Human Resources Manager
Department	People & Culture
Report type	Daily HR & Operations · Internal

1. DAILY OVERVIEW

Work on 19 August 2026 focused on the daily Slack check-in, follow-up with Team Members who had not responded the previous day, and review of incoming job applications received by email. Assigned operational tasks for the day were completed. Timely response to official messages remains the principal issue.

2. WORK COMPLETED

- Completed the daily check-in with Team Members through Slack, AfriVate's official internal communication channel.
- Issued follow-up to Team Members who did not respond to the previous day's check-in.
- Reviewed new job applications received by email.

3. CHALLENGES

A significant number of Team Members did not respond to the daily check-in or to the subsequent follow-up. This delayed confirmation of attendance and slowed related coordination for the day.

4. PROGRESS AGAINST GOALS

AREA	STATUS	NOTES
Daily check-in and follow-up	Completed — incomplete response	Check-in and follow-up were issued. A significant number of Team Members did not reply.
Recruitment administration	Completed	New applications received by email were reviewed.
Assigned daily goals	Completed	No specific goals were assigned for the day. Recurring operational tasks were completed.

5. OBSERVATIONS

- Prompt response on Slack remains inconsistent across a number of Team Members.
- Delayed replies were also observed on WhatsApp. Slack remains the official channel for workplace communication; WhatsApp is not an official work channel.

6. AGENDA FOR 20 AUGUST 2026

- Reconcile Slack and email to confirm that outstanding replies have been actioned and that no correspondence has been overlooked.
- Continue standing HR and operations duties.

Internal use: This is a daily operational record for People & Culture. It does not amend policy and does not create employment, pay, or benefits.
