

AFRIVATE STANDARD WORK PROCESS (SWP)

Document Code	AFRI-SWP
Status	Official — Binding
Applies To	All AfriVate Team Members (paid or unpaid), Team Leads, and Pillar Heads
Effective Date	2 August 2026
Review Cycle	Every 6 months or on material operational change
Owner	CEO / People & Culture

Status disclaimer: Compliance with this SWP is a condition of continued Portal access and contribution. It does **not** by itself create employment, wages, or benefits. Unpaid Internal Contributors are also bound by AFRI-ICEF-01. Structure detail is in AFRI-ORG-01. Decision rights are in AFRI-DOA-01.

1. PURPOSE AND SCOPE

The SWP is AfriVate's authoritative framework for how work is performed, recorded, evaluated, corrected, and recognised. It applies to every Team Member with Portal access — paid or unpaid — and to Team Leads and Pillar Heads in their operational duties.

Failure to comply may result in progressive discipline under §10, including end of unpaid engagement or, where a paid employment contract exists, termination of that contract subject to applicable law and any signed employment instrument.

2. DEFINITIONS

TERM	MEANING
Team Member	Any person with approved Portal access performing AfriVate work.
Internal Contributor	An unpaid Team Member engaged under AFRI-ICEF-01.
Official work days	Monday to Thursday, excluding public holidays and company-declared non-working days.
Core hours	The daily availability window on official work days that the Team Lead records for the team.

TERM	MEANING
Agreed Capacity	The hours/days a Team Member commits to AfriVate work, recorded in writing or the Portal.
Writing	@afrivate email, Portal Memo, or signed instrument — not WhatsApp alone.
System of record	The Portal feature that holds the authoritative record for a workflow (tasks, leave, OKRs, etc.).

3. CORE PRINCIPLES

- **Accountability:** Every role has defined ownership and measurable outcomes. Team Members own quality, timeliness, impact, and accurate reporting.
- **Documented flexibility only:** Exceptions to process require Team Lead or Pillar Head approval recorded in the Portal or in writing. Informal “flexibility” that erases accountability is not permitted.
- **Professionalism:** Reliability, ethical conduct, time discipline, and respect are mandatory.
- **Transparency:** Expectations, decisions, evaluations, and consequences must be recorded in approved systems.
- **Excellence:** Work must meet the stated success criteria — completion without quality is failure.
- **Single source of truth:** Where the Portal has a feature for a workflow, the Portal record prevails over chat claims.

4. STRUCTURE AND AUTHORITY

Hierarchy and pillar ownership are set exclusively by **AFRI-ORG-01**. In summary:

- **CEO** — strategy and final organisational authority.
- **Pillar Heads** — ownership of pillar outcomes.
- **Team Leads** — day-to-day operational management under AFRI-TLOP-01.
- **Human Resources Manager (People & Culture)** — policy stewardship, people systems, recruitment administration, learning, surveys, and progressive discipline process administration.
- **Team Members** — execution of assigned outcomes.

Reporting lines in the Portal Directory are conclusive for day-to-day authority. Direct CEO escalation is limited to critical risk, authorised matters, or where the normal line is implicated (including Speak up).

5. WORK SCHEDULE AND AVAILABILITY

- **Monday–Thursday:** Official work days for execution, collaboration, meetings, and decisions.
- **Friday–Sunday:** Not official work days. Duty exists only if Agreed Capacity or an approved written/Portal team schedule expressly requires specified work.

- Team Members must be reachable on Slack during core hours on official work days.
- Meetings require punctuality, preparation, and advance notice if attendance is impossible.
- Repeated unauthorised unavailability, lateness, absence, or disengagement is a performance and conduct issue under §10.
- Working outside Agreed Capacity without approval does not create entitlement to recognition, leave, or pay.

6. OFFICIAL SYSTEMS

6.1 Slack

Official channel for internal communication, coordination, clarification, follow-up, and operational escalation. Official messages must be acknowledged within **four (4) hours** during official work days and core hours.

- Use channels for work visible to the team; use DMs for legitimately private one-to-one matters.
- Summarize decisions after long threads; link to the Portal task or memo where the decision is recorded.
- WhatsApp must not replace Slack for official work, leave, policy acknowledgement, or performance management.

6.2 Portal

The Portal is the system of record wherever a feature exists, including tasks, weekly check-ins, OKRs, 1:1s, leave, onboarding, learning, resources, acknowledgements, surveys, events, directory, and people workflows.

System rule: Slack communicates; the Portal records. A Slack message never replaces a required Portal submission, approval, acknowledgement, or update.

6.3 Email

Use @afrivate email for authorised external correspondence and account security. Email does not replace Slack for day-to-day internal ops or the Portal for workflow records.

7. HOW WORK IS ASSIGNED AND EXECUTED

7.1 Task assignment standards

All actionable work must be recorded in the Portal. A valid task requires:

- Clear owner or assignees
- Defined outcome (what "done" looks like)
- Priority and deadline
- Supporting context: files, dependencies, links, and success criteria

Clarification may occur on Slack; the agreed outcome must be reflected in the Portal task before execution proceeds on ambiguous work.

7.2 Execution standards

- Execute to agreed quality, security, and professional standards for your function.
- Keep Portal tasks current (status, progress, hours, blockers) at least every official work day the task is active.
- Raise risks and delays early on Slack **and** in the Portal — not after the deadline.
- Submit **Portal** → **Weekly check-in** each period against defined KPIs, including when progress was blocked.
- Hand over work clearly when interrupted by leave, reassignment, or end of engagement.

7.3 Prohibited work practices

- Claiming completion without meeting stated success criteria.
- Performing material work with no Portal record when a task workflow exists.
- Ignoring official messages beyond the four-hour rule without explanation.
- Using WhatsApp or informal channels to bypass leave, discipline, or policy acknowledgement.

8. MEETINGS AND COLLABORATION

- Meetings require an agenda or stated purpose, a designated owner, and documented outcomes where decisions are made.
- Decisions that assign work must result in Portal tasks within one official work day.
- Record townhall and all-hands actions in Memos or tasks — attendance alone is not execution.
- Respect others' time: start and end on schedule; do not double-book core hours without notice.

9. DOCUMENTATION, QUALITY, AND HANDOVER

9.1 Documentation

- Store deliverables and source files in approved locations referenced from the Portal task.
- Use clear naming, version notes, and README/context where another Team Member must continue the work.
- Do not leave critical knowledge only in private chats.

9.2 Quality standards

Quality means the deliverable meets the agreed success criteria and is fit for its intended use.

Examples:

- **Engineering:** Works as specified, reviewed, tested appropriately, no known critical defects undocumented.

- **Design / media:** On-brand, correct dimensions, editable source retained, approved before external publish.
- **Operations / HR:** Accurate, timely, confidential information protected, recorded in the Portal.

9.3 Handover

Before leave, reassignment, or departure, provide: status summary, links, credentials handoff where authorised, open risks, and next actions — in the Portal task and to your Team Lead in writing.

10. TARGETS, KPIS, AND PERFORMANCE MANAGEMENT

Departmental and individual goals must support organisational objectives published by the CEO for the relevant period. Each Team Member maintains **3–5 weekly KPIs**, recorded in Portal OKRs and reported via Weekly check-in.

- **Appraisal weights:** 60% deliverables/output; 40% professional conduct.
- **Cadence:** Ordinary appraisals are quarterly. Active performance concerns may trigger monthly review or a PIP.
- **Evidence:** Portal tasks, check-ins, OKRs, feedback, 1:1s, learning records, and development plans.
- **Team Lead duty:** Agree KPIs, review check-ins, coach, and escalate sustained underperformance to People & Culture.

Performance scale (indicative):

SCORE BAND	MEANING	TYPICAL ACTION
70%+	Exceptional	Recognition-eligible under §11; consider expanded responsibility.
60–69%	Good	Continue; maintain standards.
50–59%	Concern	Documented coaching required.
40–49%	Underperformance	Written warning or PIP may apply.
Below 40%	Critical	End of engagement or employment termination may apply, subject to fair review.

11. RECOGNITION

Recognition (learning opportunities, public recognition, events, awards, or — only if separately approved in writing by the CEO — any cash or equity benefit) is discretionary, subject to performance, affordability, and AFRI-DOA-01. No Team Member has a right to bonus or reward. Portal awards must be recorded in the Portal.

12. DISCIPLINE AND CORRECTIVE ACTION

Triggers include missed deadlines, inaccurate reporting, poor communication, unauthorised absence, misconduct, repeated underperformance, security violations, confidentiality breaches, and failure to use approved systems.

12.1 Progressive steps

1. Documented coaching or verbal warning (recorded by Team Lead or HR)
2. Written warning (copied to People & Culture)
3. Performance Improvement Plan (PIP) with measurable targets and timeline
4. Restricted responsibilities or other proportionate corrective action
5. End of unpaid engagement and/or termination of paid employment, subject to AFRI-DOA-01, AFRI-ICEF-01, and applicable law

AfriVate may skip steps for serious misconduct (including dishonesty, harassment, confidentiality breach, or security violations).

12.2 Mandatory system compliance

Failure to join or remain on official systems when required (e.g. Slack workspace, Portal onboarding, policy acknowledgements) may be treated as non-compliance with this SWP and may result in corrective action up to end of engagement, as demonstrated in operational enforcement.

13. CULTURE, SPEAK UP, AND SURVEYS

- Own outcomes, not only effort.
- Respect commitments (meetings, deadlines, response times).
- Follow reporting lines; raise concerns through **Portal** → **People** → **Growth** → **Speak up**.
- Complete assigned surveys, learning, onboarding, acknowledgements, and development workflows honestly and on time.
- Retaliation against good-faith Speak up reports is prohibited.

14. SECURITY AND CONFIDENTIAL INFORMATION

- Protect Portal credentials, workspace access, and unreleased company information.
- Do not exfiltrate user data, partner terms, or internal metrics without authorisation.
- Report suspected incidents immediately to your Team Lead and People & Culture.
- Follow secure engineering and document-handling practices applicable to your role.

15. CRISIS ESCALATION

A crisis is an event posing immediate risk to operations, reputation, infrastructure, legal standing, safety, or user trust.

1. Team Member notifies via Slack immediately and records detail in the Portal where a workflow exists.
2. Team Lead assesses and, if critical, escalates to Pillar Head and CEO within **sixty (60) minutes** of becoming aware it is critical.
3. Pillar Heads coordinate the operational response.
4. CEO retains final authority over crisis decisions and public statements.

16. LEAVE

Absence from duty is governed exclusively by AFRI-LAP-01. No leave is effective until the People & Culture decision appears in the Portal.

17. PORTAL WORKFLOW QUICK REFERENCE

WORKFLOW	PORTAL PATH	RULE
Assigned work	Tasks	Must exist before execution on non-trivial work.
Weekly reporting	Weekly check-in	Submit each period; no silent weeks.
Goals	Growth → OKRs	3–5 KPIs, measurable.
Leave	Leave / Time off	Only Portal approval counts.
Policies	Resources	Acknowledge within 7 official work days when assigned.
Concerns	People → Speak up	Confidential good-faith reporting.

18. GOVERNANCE, LAW, AND ACKNOWLEDGEMENT

- Reviewed every six months or on material change. Binding version is the Portal Resources copy with Document Code AFRI-SWP.
- Governed by the laws of the Federal Republic of Nigeria; FCT Abuja courts (subject to mandatory rules).
- Severability and no-waiver apply.
- Only the CEO (or a person the CEO expressly authorises in writing) may amend this document.
- Portal acknowledgement = confirmation of reading, understanding, and agreement to comply.

Acknowledgement

By acknowledging this document in the Portal (or signing below where a written copy is used), the Team Member confirms they have read, understood, and agree to comply.
