

WE ARE HIRING: GRAPHIC DESIGNER

Department	Brand, Media & Creative
Role	Graphic Designer
Location	Remote
Employment	Full-Time · Flexible Work Structure
Core Tools	Adobe Creative Suite · Figma
Application	CV + Cover Letter + Portfolio

DESIGN VISUAL EXPERIENCES THAT ELEVATE LIFE IN AFRICA

AfriVate Technologies Ltd is looking for a creative, detail-oriented Graphic Designer to translate ideas, campaigns, and product stories into clear and memorable visual communication. You will help protect and evolve the AfriVate brand across digital platforms, marketing materials, presentations, social media, events, and product-supporting assets.

WHAT YOU WILL DO

- Create high-quality graphics for social media, campaigns, recruitment, presentations, events, reports, and internal initiatives.
- Apply and maintain AfriVate's visual identity consistently across colours, typography, imagery, layout, and logo usage.
- Develop campaign concepts and turn approved creative directions into platform-ready assets in multiple formats and sizes.
- Design print-ready and digital materials, including flyers, posters, brochures, infographics, templates, and branded documents.
- Support product teams with icons, illustrations, interface assets, launch graphics, and visual storytelling where required.
- Prepare organised, editable source files and export production-ready assets with accurate dimensions, colour profiles, and file formats.
- Manage assigned work through the AfriVate Portal and use ClickUp for briefs, clarification, feedback, and communication.

CORE REQUIREMENTS

- A strong portfolio demonstrating branding, layout, typography, social media design, and campaign work.
- Practical proficiency with **Adobe Photoshop and Adobe Illustrator**.
- Working knowledge of **Figma** and the ability to collaborate on shared files and design systems.
- Strong understanding of composition, hierarchy, colour, typography, image selection, and brand consistency.
- Ability to interpret briefs, propose thoughtful concepts, receive feedback professionally, and deliver polished work on time.
- Ability to prepare assets correctly for web, social media, presentations, and print.
- Reliable file organisation, version control habits, and attention to detail.

USEFUL TOOLS & NICE-TO-HAVE EXPERIENCE

Experience with some of the following is valuable; candidates are not expected to know everything:

- Adobe InDesign for reports, brochures, and multi-page documents;
- After Effects, Premiere Pro, CapCut, or another tool for motion graphics and short-form video;
- Canva for controlled template systems and rapid content adaptation;
- Basic UI/UX principles, responsive design, and developer handoff;
- Illustration, icon design, photo editing, art direction, or creative campaign strategy;
- Experience designing for African audiences, technology products, startups, or social-impact brands.

WHAT WE VALUE

- Original thinking grounded in the brief and the audience;
- Consistency, craftsmanship, and strong visual judgement;
- Ownership, reliability, and respect for deadlines;
- Clear communication and the ability to explain design decisions;
- Curiosity, adaptability, and willingness to improve through practice and feedback.

ROLE BENEFITS

- **Remote, flexible work:** A full-time role with a flexible work structure focused on accountability and outcomes.
- **Equity participation:** A 2% equity stake vesting over two years, subject to the formal equity award, vesting terms, continued service, and applicable company documentation.

- **Monthly data support:** A ₦20,000 data stipend to support reliable remote work.
- **Creative ownership:** The opportunity to shape the visual expression of an African technology brand and establish reusable creative standards.
- **Portfolio development:** Exposure to varied brand, campaign, product, event, editorial, and corporate design work.
- **Cross-functional experience:** Collaboration with product, technology, people, operations, and leadership teams.
- **Career development:** Increasing responsibility and future creative-leadership opportunities as the company grows.
- **Purpose-led impact:** Design for technology intended to improve connectivity and elevate life across Africa.

HOW TO APPLY

Email the following application materials to **afriivatehr@gmail.com**:

- Your current CV;
- A tailored cover letter explaining why you want to join AfriVate and how your experience fits this role;
- A portfolio link or PDF portfolio containing your strongest relevant work; and
- Optional links to Behance, Dribbble, a personal website, or relevant social design work.

Required email subject: APPLICATION FOR GRAPHIC DESIGNER — [YOUR FULL NAME]

Portfolio note: Identify two projects in your portfolio, explain the brief and your contribution, and state the tools used.

Applications sent without the required subject line, cover letter, or portfolio may not be reviewed.
