

AFRIVATE TEAM SPACE — TEAM LEAD PORTAL GUIDE

Document Code	AFRI-PUG-03
Product	AfriVate Team Space · portal.afrivate.org
Audience	Team leads and assistant leads
Last updated	14 August 2026
Contact	hr@afrivate.org

This guide is **only for team leads and assistant leads**. It covers what you can see and do in the portal — your own work **and** the extra tools for the people you manage.

It does **not** cover Admin, recruitment, appraisals, discipline paperwork, or role changes. You will not see those. People & Culture use the full AFRI-PUG-01. Ordinary staff use AFRI-PUG-02.

1. WHO THIS IS FOR

Role on your profile	What this means in the portal
Assistant lead	You do everything a team member does, plus approve leave for your people, see their weekly updates, see a team snapshot, mark 1:1s, review their IDPs, see team OKRs, see PIP/suspension badges, and open management-only files. You cannot publish memos or add calendar events.
Team lead	Everything an assistant lead can do, plus publish memos and add calendar events.

You still **do not** see **Admin** in the menu. That is correct. You cannot approve new joiners, change roles, open recruitment, write appraisals, or place someone on a PIP. Send those to People & Culture.

If nobody “belongs” to you yet (no reports-to, no team, no department head role), team tabs will look empty. Ask HR to set reporting lines.

2. THE GOLDEN RULE

If it needs a record, it belongs in the **Portal**. Slack is for chat (acknowledge official Slack messages within **four (4) hours** on official work days). WhatsApp is informal or emergency only. A Slack “please approve my leave” is **not** an approval. Click **Approve** in the Portal.

Tool	You use it for
Portal	Your own records and leave approvals, team check-ins, 1:1 completion, IDP review, memos (team lead), calendar events (team lead).

Tool	You use it for
Slack	Coordination, handover before leave, chasing a late weekly update after you have checked the Portal.
Email (hr@afprivate.org)	Escalations to People & Culture.
Alison	Your own courses. Proof goes in the Portal.
AVA	How-to help. She never approves or submits for you.

3. GETTING IN AND FINDING YOUR WAY

Same as everyone else: **portal.afprivate.org**, email/password or magic link, **Account & security** for password changes.

Menu (no Admin): Home · My work · Inbox · People · Search · Weekly update · Getting started · Notes · Memos · Resources · Calendar. **Phone:** Home, My work, Inbox, People, More. **Top bar:** light/dark, search, availability (Available / Away / Busy / Focusing), inbox bell, profile menu. Purple **AVA** button bottom-right.

4. WHAT YOU CAN DO THAT STAFF CANNOT

Extra capability	Where	Assistant lead	Team lead
Approve or decline team leave	People → Time off → Team requests	Yes	Yes
See who is off (leave calendar)	People → Time off → Calendar	Yes	Yes
See team weekly updates	Weekly update → Team	Yes	Yes
Team snapshot (combined scores)	People → Overview	Yes	Yes
See who is on PIP or suspended	People → Overview, Directory	Yes	Yes
Mark 1:1s complete for your people	People → Growth → 1:1s	Yes	Yes
Read team OKRs (read-only)	People → Growth → OKRs	Yes	Yes
Review submitted IDPs	People → Growth → IDP	Yes	Yes
Open management-only files	Resources	Yes	Yes
Publish / edit your memos	Memos	No	Yes
Add calendar events	Calendar	No	Yes

5. HOME (YOUR EXTRA NUMBERS)

Path: Home

Same banners as staff (surveys, learning, policies), **plus** a count of **leave waiting on you** (your people's pending requests, and your own). Start here. Clear your own banners. Then open Time off if the leave number is not zero.

6. YOUR OWN WORK (YOU STILL DO ALL OF THIS)

You are not exempt from staff habits.

- **My work** — create tasks, assign people, mark **Complete** (the portal stores who and when). Views: Board, List, Week.
- **Inbox** — your alerts (leave comments, shout-outs, assignments, memos).
- **Search** — people, memos, tasks, documents you may open (including management-only), events, leave in your scope. Not HR-only files or recruitment.
- **Weekly update** — submit **your** four fields, then open the **Team** tab (section 8).
- **Notes, shout-outs, learning, surveys, My info** — same as staff. Keep your own My info complete.
- **Directory** — edit **your** card. You cannot edit other people's profiles. You **can** see PIP / suspension badges on others.

7. APPROVE LEAVE (THE MOST IMPORTANT EXTRA)

Path: People → Time off

Staff only see **My requests**. You also see **Team requests** and **Calendar**. Leave is official **only** in the Portal. Do not "approve" on WhatsApp or Slack and skip the button here.

1. Open People → **Time off** → **Team requests**.
2. Open the request. Check dates, type (annual / sick / emergency), reason, and any attachment.
3. Confirm **Approve** or **Decline**, and add a short note. The person is notified in their Inbox.
4. Use **Calendar** to see who is off that month.

You see people linked to you through reports-to, your team, or a department you head. You do not see the whole organisation. Except emergencies, expect at least **three (3) official work days' notice** and a work handover (they should also tell the team on Slack). Until you click Approve, they are **not** on approved leave. You cannot delete a leave request. People & Culture can. Typical allowances shown: annual 20 days, sick 10, emergency 7.

8. TEAM WEEKLY UPDATES

Path: Weekly update → Team

See who on your team has submitted this week and who has not. Open a person's update to read finished / next / blockers / hours. You can filter by department. Chase missing updates on Slack if you like — but the **record** is this page. HR can also see org-wide check-ins; you cannot.

9. PEOPLE OVERVIEW — TEAM SNAPSHOT AND DUTY STATUS

Path: People (Overview)

My team snapshot shows combined numbers for people you manage (headcount, engagement, eNPS, and similar). You do **not** see anyone's individual survey answers. If no numbers appear, reporting lines may not be set. Ask HR.

PIP & suspension (visible to leads, HR, and admin) lists people currently on a Performance Improvement Plan or suspension. You will also see these badges on Directory profiles. You cannot change duty status.

Status	What it means	What you can do
On PIP	They keep full portal access. A banner shows for them.	Support them. You cannot create or close the formal PIP file. That is HR.
Suspended	They can sign in and read Memos and Resources only.	Do not expect tasks, leave, or check-ins from them until HR lifts it.

10. GROWTH AS A MANAGER

Path: People → Growth

You still have your own OKRs, IDP, feedback, milestones, awards, and Speak up. On top of that:

OKRs

Your own objectives for the quarter, with key-result sliders. Below that, **Team OKRs (read-only)** — you can see your people's aims and progress. You cannot edit theirs.

1:1s

Meet **outside** the portal (Google Meet, Slack huddle, in person). Then come here and **Mark done** for each person this month. That is how HR knows the conversation happened. You will also see whether **your** manager has marked your 1:1 complete. You cannot mark your own.

IDP

Write and submit **your** plan. If people who report to you have submitted theirs, an **IDP reviews** panel appears. Read the plan, write manager feedback, click **Mark reviewed**. They will see your note.

Feedback

When HR opens a 360° cycle, complete the forms assigned to you (including as a manager). You cannot open or close a cycle. HR does that.

Speak up

Your own confidential concerns go to HR. You do not receive other people's Speak up submissions.

11. PUBLISH MEMOS (TEAM LEAD ONLY)

Path: Memos

Assistant leads: skip this section. You can read memos; you cannot publish.

Team leads: compose a memo (title, body or attached document, category, priority: Info / Important / Urgent). Choose audience: everyone, or a department. Attach images or files if needed. Drafts can save on

your device until you publish. You can edit memos you posted. You cannot delete other people's memos — HR/Admin can. If you need an organisation-wide HR digest, ask People & Culture.

12. ADD CALENDAR EVENTS (TEAM LEAD ONLY)

Path: Calendar

Assistant leads: skip this section. You can browse events; you cannot add them.

Team leads: create an event (title, date, start/end time, location, audience: everyone or a department). Drafts can save locally before you publish. Staff will see it on Home (if it is soon) and on Calendar.

13. RESOURCES (INCLUDING MANAGEMENT-ONLY)

Path: Resources

Browse, preview, download, and **acknowledge** policies that require it — same as staff. **Extra:** files marked **management only** are visible to you. Staff cannot see them. Files marked **HR only** are still hidden from you. You cannot upload or delete library files. People & Culture manage the library.

14. AVA

Same helper as staff. Ask "How do I approve leave?" and use **Go to Time off**. She never clicks Approve for you. She will not show you HR records you are not allowed to see.

15. WHAT YOU CANNOT DO (SEND THESE TO HR)

Need	Who does it
Approve a new joiner's access	Admin → Approvals (HR / Admin)
Change someone's role or department	Admin → Users (role = Administrator only)
Place someone on PIP or suspension	Admin → Employees or Users (HR / Admin)
Write a formal PIP, warning, or appraisal	Admin → Employees (HR / Admin)
Confirm probation	Admin → Employees
Recruitment / CVs	Admin → Recruitment
Launch a survey or assign Alison to the org	Admin → HR dashboard
Upload a policy	Resources as HR, or Admin
See the whole organisation's check-ins	Admin → Check-ins

If a person is not showing on Team requests or Team check-ins, their reporting line is probably wrong. Ask HR to fix reports-to / team membership.

16. QUICK “WHERE DO I...?”

I want to...	Go here
Approve leave	People → Time off → Team requests
See who is off	People → Time off → Calendar
See who submitted a weekly update	Weekly update → Team
Mark a 1:1 complete	People → Growth → 1:1s
Review a development plan	People → Growth → IDP
See team OKRs	People → Growth → OKRs
See who is on PIP / suspended	People → Overview or Directory
Publish a memo	Memos (team lead only)
Add an event	Calendar (team lead only)
Request my leave	People → Time off
Submit my weekly update	Weekly update → This week
Submit my Alison certificate	People → Learning
Update my emergency contact	People → My info
Ask how to do something	AVA, then complete the action yourself

17. A GOOD WEEKLY HABIT FOR LEADS

1. **Home** — your banners first, then any leave waiting on you.
2. **Time off** → **Team requests** — do not leave people pending.
3. **Weekly update** — submit yours, then check **Team** for gaps.
4. **Growth** → **1:1s** — if you met someone this month, mark it done.
5. Keep **your** My info, learning, and surveys current — you model the behaviour.
6. Records in the Portal. Chat on Slack. Escalate to hr@afprivate.org when it is an HR decision.

18. IF SOMETHING GOES WRONG

What you see	What to do
Team requests / Team tab empty	Ask HR to set reports-to, team, or department head.
Cannot publish a memo or add an event	You may be an assistant lead . Ask a team lead or HR.

What you see	What to do
"We couldn't load your data"	Retry, then refresh.
Someone on your team is suspended	They can only read Memos and Resources. Talk to HR; you cannot lift it.
You are on a PIP banner	You keep full access. Talk to your lead and HR.
AVA down	Use this guide, or email hr@afprivate.org .

Questions: hr@afprivate.org or your designated People & Culture representative.
